Here is the Order Form you requested. **Please note these other great offerings from Excel Math:**

### Projectable Lessons in electronic format:

- Project concepts from the lessons, with space for students to interact.
- Each lesson of the day has multiple slides plus answers.
- Distributed on CD-R discs or as downloads, one for each grade K to 6.
- The Projectable has 155 lessons and can be used with any computer.
- Lessons may be printed for document cameras and projectors.
- A Teacher Edition (not printable) and manipulatives are included on the CD or download.

Order one Projectable per grade level for each school site.  
Save when you purchase a Projectable with a print Teacher Edition (Combo)

### Summer School Edition 6-week program:

- ✓ Review concepts and prepare for the upcoming term.
- ✓ Order the grade level your students will be entering in the fall.
- ✓ Keep students active and progressing during the summer break.
- ✓ Used by **teachers** in summer school programs, **parents** teaching their children, or **students** working independently.
- ✓ Contains 30 lessons and 6 tests.

Individual Student Set and Teacher Edition available

Free Training Videos available online: <http://excelmath.com/videos2.html>

- suggestions for using Excel Math in your classroom
- strategies and best practices for effective direct instruction
- tips to take full advantage of the components of Excel Math
- using the regular assessment tools for maximum instruction
- when using Excel Math as a supplement, how to blend Excel Math with an adopted core curriculum

Achieve best results by viewing the videos at the beginning of the year for an overview and watching again in 4-6 weeks.
